NX70 USV Boat

Light weight, backpackable boat for a wide range of environmental applications in difficult, hard to reach locations. RC manual control only.

Starting from \$1850

NX95 USV Boat

Extended version of the NX70 for greater carrying capacity but still light weight and easy to carry. Available in Airboat version for heavy weed waterways or conventional underwater thrusters. RC manual control only.

Starting from \$1980

NX100 Enviro USV

Multirole USV with excellent carrying capacity for a wide range of water quality and hydrometric applications. RC manual control only.

Starting from \$4650

NX100 Pro USV

Same specifications as our NX100 Enviro boat but with full autonomous capacity using our long-range Android base handset.

Starting from \$7750
